

A SPINNING TOY

1. You will need:

Spinning toy templates
Colouring pencils
Glue stick
Scissors
Hole punch
String cut into 60 cm lengths

2. Carefully colour in the three people on your discs. The two people represent the disciples and the man on his own represents Jesus. Cut out your discs.
3. Stick the two discs back-to-back. Make sure 'Jesus' is standing the right way up and the disciples are upside down. Hold the discs firmly together as the glue starts to dry.
4. Cut two pieces of string approximately 60 cm in length. Tie the ends of the string to make two loops.
5. Fold a piece of sticky tape over the edge of the disc covering the two circles. Punch two holes in the disc using the circles as markers. Thread the string through the holes as shown in the picture.
6. Once the string is secure try out your spinning toy.

Hold the two ends of the string with the picture of the two disciples facing you. Ask a friend to wind your toy by turning the disc over and over until the string is twisted on itself.

Ask your friend to let go. Gently pull on the two ends of the string so that it unwinds. As the disc spins the two pictures will appear as one and Jesus will be standing between the disciples.
